PROFESSIONAL SUMMARY

Entry-Level Front-End Developer skilled in HTML5, CSS3, JavaScript, and Python with hands-on experience building responsive web applications. Proficient in DOM manipulation, event-driven programming, client-side scripting, and UI development. Strong understanding of responsive web design, debugging, and cross-browser compatibility. Seeking an entry-level opportunity to contribute to real-world projects while continuously enhancing front-end development expertise.

PROJECTS

Paws Rescue and Rehabilitation Program (<https://ajay-11012.github.io/Paws-Rescue-and-rehabilitation-Program/>)

Developed a responsive web platform using HTML, CSS, and JavaScript to allow users to report injured or distressed animals. Implemented form handling, client-side validation, and JavaScript event handling to simulate real-time notifications to NGOs. Focused on front-end development and responsive UI/UX to ensure a seamless user experience.

Mini Project: Flames Game (<https://play-flames-game.netlify.app/>)

Developed an interactive Flames Game using HTML, CSS, and JavaScript to determine compatibility between two names. Implemented DOM manipulation, event handling, and responsive UI to provide a smooth and engaging user experience. Focused on front-end development and client-side logic for real-time interactivity.

ACHIEVEMENTS

Awarded 2nd Place at the ACT First Quarter Project Showcase, Academy for Careers and Technology for completing an interactive project using Code.org Academy for Careers and Technology

HOBBIES AND INTERESTS

- Developing interactive web games using HTML5, CSS3, JavaScript, and DOM manipulation
- Continuous learning through reading programming, technology, and software development books
- Problem-solving and strategy development through chess, improving logical thinking and planning
